

# Seafood Cracker and Pick Set

This set includes a seafood cracker and pick. These tools are designed for cracking and picking shellfish.

## Product Overview

### Flexible Single Core Wire

This PVC insulated flexible single-core wire is engineered for versatility and reliability in various electrical applications. Featuring a high-quality copper conductor and durable PVC insulation, it provides excellent flexibility for easier installation in tight spaces. It is an ideal solution for the internal wiring of appliances, electronic equipment, lighting systems, and instrumentation.

## Technical Specifications

Insulation Material	PVC
Conductor Material	Copper
Core Type	Single Core

## Compliance & Standards

Compliance Standards	BS6004
----------------------	--------

## Application

### Common Applications

- Internal wiring of appliances
- Electronic equipment
- Lighting systems
- Instrumentation
