

Sealed Lead-Acid Battery 12V 200Ah

This is a 12V 200Ah sealed lead-acid battery. It is designed for constant voltage charging and cycle use.

Product Overview

High-Performance Gel Battery

This 12V 200Ah sealed rechargeable gel battery is engineered for reliable power storage in both cycle and standby applications. Featuring a nonspillable construction, it offers enhanced safety and versatility for various industrial and commercial environments. The unit is designed for optimal performance under constant voltage charge conditions.

Technical Specifications

Core Specifications

12 V

Voltage

200 Ah

Rated Capacity

Charging Guidelines

| Usage Type | Voltage Range |
|-------------|---------------|
| Cycle Use | 14.5-14.9V |
| Standby Use | 13.6-13.8V |

Safety & Compliance

Handling Precautions

- Nonspillable design
- Must be recycled at end of life
- Do not short circuit terminals
- Avoid charging in gas-tight containers
- Do not incinerate or expose to temperatures above 50°C

Certifications

CE, ISO
