

Sealed Lead-Acid Battery for Electric Vehicles

This sealed lead-acid battery is designed for deep-cycle applications. It provides reliable power for electric vehicles, mobility scooters, and other industrial equipment.

Overview

High-Performance Deep-Cycle Battery

This sealed lead-acid battery is engineered specifically for deep-cycle applications, offering reliable power for electric vehicles, mobility scooters, and industrial equipment. Its robust construction ensures maintenance-free operation and a long service life, even in demanding environments. Designed to deliver consistent performance, it is an ideal solution for professional mobility and industrial power needs.

Key Features

Maintenance

Maintenance-Free

Battery Technology

Sealed Lead-Acid (SLA)

Suitable Applications

Electric Vehicles, Mobility Scooters, Industrial Equipment, Deep-Cycle

Technical Specifications

Performance Metrics

10 Ah

Capacity

12 V

Voltage

Model Identifier

6-DZM-10
