

# Sealed Lead-Acid Rechargeable Battery

This is a sealed VRLA battery designed to provide a reliable power source for various applications. The battery has received both CE and UL approvals.

## Overview

### Reliable Power Solution

This sealed lead-acid rechargeable battery is designed for applications requiring a maintenance-free and dependable power source. Engineered for constant voltage charging, it ensures stable performance for both cycle and standby use. The unit is built to strict safety standards, making it suitable for professional and industrial equipment needs.

## Technical Specifications

### Voltage & Capacity

**12 V**

Voltage

**12 Ah**

Capacity

### Charging Characteristics

Mode	Voltage Range
Cycle Use	14.5-15.0V
Standby Use	13.5-13.8V

### Initial Current Limit

3.6 A

## Compliance & Safety

### Handling & Disposal

- Do not short circuit
- Must be recycled or disposed of properly
- Sealed lead-acid construction

### Certifications

CE, UL
