Product Overview

Professional Seamless Stainless Steel Piping

These high-quality seamless stainless steel pipes are engineered for demanding industrial environments, providing superior corrosion resistance and high structural integrity. Manufactured to meet international standards including ASTM, EN, DIN, and JIS, they are suitable for critical applications in energy, chemical processing, and aviation. Available in a wide range of diameters and thicknesses, these pipes offer the reliability required for both high-pressure and hygienic systems.

Technical Specifications

Dimensional Specs

762 mm

Outer Diameter

50 mm

Thickness Range

18 m

Max Length

International Standards

- ASTM A312, A213, A269, A249, A511, A789, A790
- EN10216
- DIN
- JIS
- GOST

Available Grades

304/L, 316/L, 321/H, 347H, Duplex, S31803, 32750

Quality Assurance

Quality Testing

UT, ET, HT, PT, RT

Trade Information

Commercial Details

| Parameter | Details |
|---------------|-----------------|
| FOB Price | USD 2000/Ton |
| Min Order | 1 Ton |
| Delivery Time | 45 Days |
| Capacity | 30000 tons/year |
