

Segmented Diamond Saw Blade for Hard Materials

This diamond saw blade is designed for cutting hard materials like tile, stone, and concrete. It features a segmented rim for aggressive cutting action and efficient debris removal.

Product Overview

High-Performance Cutting Solution

This segmented diamond saw blade is engineered for professionals requiring high efficiency when cutting hard materials like tile, stone, and concrete. Its segmented rim design promotes aggressive cutting action while facilitating superior debris removal during operation. Designed for versatility, the blade performs optimally in both wet and dry cutting environments, ensuring long-lasting performance and precision.

Technical Specifications

Material Suitability	Tile, Stone, Concrete
Operating Modes	Wet Cutting, Dry Cutting
Rim Configuration	Segmented

Compatibility

Compatible Tools

- Angle Grinders
- Circular Saws
