Product Overview

Professional Segmented Diamond Discs

These high-performance segmented diamond discs are engineered for efficient cutting across a wide variety of construction materials including stone, granite, marble, and concrete. The segmented rim design facilitates rapid material removal while providing enhanced cooling to significantly extend blade longevity. Fully compliant with EN 13236 safety standards, these blades offer a reliable solution for both dry and wet cutting applications in professional building environments.

Technical Specifications

Suitable Materials

- Stone
- Granite
- Marble
- Concrete
- Tile

Performance & Capacity

13300 RPM

Max Speed (4.5 inch)

8400 RPM

Max Speed (7 inch)

Available Variants

Diameter	Bore/Arbor	Design
114mm (4.5 inch)	-	Segmented
180mm (7 inch)	22.2mm (7/8 inch)	Turbo Wave

Certifications
