

Self-Ballasted Induction Lamp, 12W-23W

This self-ballasted induction lamp operates between 12W and 23W. It features an integrated ballast, ensuring simple setup and long-lasting illumination with minimal energy usage.

Product Overview

Efficiency Meets Longevity

The self-ballasted induction lamp offers a high-efficiency lighting solution designed to provide reliable, long-lasting illumination. By integrating the ballast directly into the unit, this lamp ensures simplified installation and seamless operation across various environments. Its energy-efficient design helps reduce operational costs while maintaining consistent light output performance.
