

Self-Closing Overlay Cabinet Hinge

This self-closing hinge is designed for overlay cabinet doors. It features a variable overlay design for adjustability and ensures doors close fully.

Product Overview

Self-Closing Overlay Cabinet Hinge

This self-closing hinge is engineered for overlay cabinet door applications, providing a reliable and smooth closing action. Constructed from durable metal with an elegant antique brass finish, it is designed to withstand daily use while maintaining its aesthetic appeal. The variable overlay design offers essential adjustability, ensuring a precise fit for a variety of cabinet styles and installation requirements.
