

Self-Closing Solid Brass Cabinet Hinge

This self-closing cabinet hinge is constructed from solid brass. Its compact design is suitable for face-frame cabinets and features a spring mechanism for automatic closing.

Product Overview

Premium Self-Closing Brass Hinge

This self-closing cabinet hinge is expertly crafted from solid brass, ensuring long-term durability and resistance to wear. Designed for face-frame cabinets, it incorporates a reliable spring mechanism that provides automatic, smooth closure. With its countersunk mounting holes, the hinge ensures a flush screw installation for a clean, professional finish in kitchen or bathroom cabinetry.
