

Self-Leveling 5-Line Laser Level

This is a 5-line laser level with self-leveling functionality. It uses a large-capacity Li-ion battery for long-lasting performance.

Product Overview

High-Precision Leveling Solution

This self-leveling 5-line laser level is designed for professional construction and alignment tasks. It features an integrated self-leveling function to ensure accurate measurements in various environments. Equipped with a large-capacity Li-ion battery, it provides the reliability needed for extended use on the job site.

Technical Specifications

Laser Lines	5 lines
Power Source	Li-ion Battery
Key Features	Self-Leveling, High-Precision, Extended Battery Life
