Product Overview

Professional Cross Line Laser Level

This self-leveling cross line laser provides bright horizontal and vertical reference lines to streamline alignment and leveling tasks. It is designed for high-precision indoor work, featuring a 10-meter working range and automatic leveling capabilities. Built for ease of use, the device is powered by standard AA batteries and meets rigorous international safety and environmental standards.

Laser Specifications

Laser Details

Property	Value
Laser Class	Class 2
Max Output	< 1 mW
Wave Length	635 nm

Power and Compliance

Certifications	CE-EMC, RoHS, RCM, EN60825-1
Power Requirements	3V DC, 2 x AA Batteries
