Product Overview

Professional Grade Self-Locking Cable Ties

These high-quality nylon cable ties are engineered for reliable bundling and securing of cables, wires, and hardware across diverse industrial environments. Featuring a robust self-locking head design, they offer quick installation and a secure hold that is resistant to aging and environmental wear. Manufactured from UL-approved materials, they ensure high tensile strength and excellent insulation for both indoor and outdoor applications.

Technical Specifications

Flame Retardant Rating
94V-2

Material Nylon (UL-approved material)

Working Temperature -40 to 85

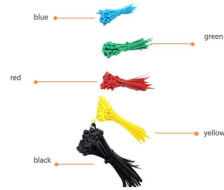

Key Features Self-locking, Heat-resistant, Anti-aging, High Insulation, Flexible, Non-toxic

Design & Customization

PRODUCT DESCRIPTION

NYLON CABLE TIE

Kaval

Available Colors

- White
- Black
- Nature (Standard)
- Blue
- Green
- Red
- Yellow

Length Availability

All lengths available on request

Compliance & Quality

Certifications

SGS, RoHS, CE, UL Approved Material

Application & Usage

Target Industries

- Electrical & Electronic
- Lighting & Hardware
- Pharmaceutical & Chemical
- Computer & Machinery
- Agriculture

Installation Process

- Bundle the cables within the nylon tie
- Insert the tail into the self-locking head
- Tighten using a tensioning tool or by hand

Commercial Terms

Delivery Time

3-15 days (Depending on order quantity)

Payment Terms

T/T, Western Union, L/C, PayPal
