

Self-Locking Tape Measure

This tape measure is designed for accurate measurements in various applications. It features a self-lock mechanism for ease of use and durable construction for long-lasting performance.

Product Overview

Precision and Reliability

This professional-grade tape measure is engineered for accuracy and durability in demanding work environments. Featuring a robust self-locking mechanism, it ensures precise measurements and ease of operation for construction, woodworking, and renovation projects. The dual-scale design provides both metric and imperial units for maximum versatility on the job site.

Technical Specifications

Model Number	CR-G38
Tape Length	5 m
Tape Width	19 mm

Features

Locking Mechanism

Self-Locking

Measurement Units

Metric, Imperial

Applications

Ideal For

- Construction
- Woodworking
- Home Improvement
