

Self-Priming Centrifugal Pump

This self-priming pump is engineered for efficient fluid transfer. Its robust construction and metallic casing ensure reliable operation.

Product Overview

Industrial Fluid Transfer Solution

This self-priming centrifugal pump is engineered for efficient fluid transfer in demanding industrial environments. It features a robust metallic casing paired with a durable motor housing to ensure reliable long-term performance. The unit is designed for seamless integration into existing piping systems through standard flange connections.

Technical Specifications

Manufacturing Origin

USA

Pump Type

Self-priming centrifugal

Construction Materials

Metallic casing

Connection Interface

Flange
