

Self-Priming Centrifugal Pump for Fluid Transfer

This self-priming centrifugal pump is designed for fluid transfer applications. It features a robust electric motor and durable pump housing.

Product Overview

Self-Priming Centrifugal Pump

This self-priming centrifugal pump is engineered for efficient fluid transfer across a variety of demanding environments, including construction, agriculture, and general industrial applications. It features a robust electric motor designed for consistent, reliable performance and a durable housing that ensures longevity under operational stress. Mounted on a protective frame, the unit offers enhanced portability and stability for versatile use in the field.

Technical Specifications

Pump Type	Self-Priming Centrifugal
Suitable Applications	Construction, Agriculture, Industrial

Design & Construction

Key Design Features

- Self-priming capability
- Robust electric motor
- Durable pump housing
- Protective mounting frame

Portability	Yes
