

Self-Priming Centrifugal Pump for Irrigation

This self-priming centrifugal pump is designed for irrigation and drainage applications. Its robust construction ensures durability and reliable performance in demanding environments, making it suitable for transferring water containing solids.

Overview

Professional Irrigation and Drainage Solution

This self-priming centrifugal pump is engineered for demanding irrigation and drainage applications. Its robust construction ensures reliable performance in harsh environments, making it suitable for transferring water containing solids. It serves as an ideal solution for agricultural, construction, and industrial dewatering needs.

Key Features

Performance Features

- Self-priming operation
- Solids handling capability
- Robust construction for durability
- Reliable performance in demanding environments

Pump Type

Centrifugal • Self-Priming

Primary Applications

Agriculture, Construction, Industrial Dewatering, Irrigation, Drainage
