

Self-Priming Centrifugal Water Pump

This two-pole induction motor water pump is designed for continuous service. It is suitable for clean water without abrasive particles and liquids that are not chemically aggressive.

Overview

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is engineered for reliability in domestic and light commercial applications. It is specifically designed for use with clean water that is free of abrasive particles and chemically non-aggressive. Ideal for pressure boosting systems, garden irrigation, and general water transfer, this unit offers an economical and user-friendly solution for fluid management.

Performance Metrics

Fluid Compatibility

Clean Water Only • Non-Abrasive • Chemically Non-Aggressive

Recommended Usage

Domestic Use, Pressure Boosting, Garden Irrigation, Water Transfer

Installation & Environment

Installation Environment

Must be installed in an enclosed environment or sheltered from inclement weather.
