

# Self-Priming Centrifugal Water Pump

This self-priming centrifugal pump is designed for water transfer and boosting applications. It features a durable construction with a cast iron pump body and a corrosion-resistant impeller.

## Product Overview

### Efficient Water Management

This self-priming centrifugal pump is expertly engineered for reliable water transfer and pressure boosting applications. Constructed with a robust cast iron body and a corrosion-resistant impeller, it offers durability for both domestic and general-purpose irrigation tasks. Its design prioritizes ease of installation and low-maintenance operation, ensuring long-term performance.

## Technical Specifications

Pump Type	Self-priming Centrifugal
Construction Materials	Cast Iron Body, Corrosion-resistant Impeller

## Applications

### Primary Applications

- Domestic water supply
- Irrigation systems
- General-purpose water transfer
- Pressure boosting

## Key Features

### Key Highlights

Easy Installation • Low Maintenance • Long Service Life • High Efficiency
