

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for irrigation, drainage, and water transfer. It features a durable construction for longevity and resistance to corrosion.

Product Overview

Professional Self-Priming Centrifugal Pump

This self-priming centrifugal water pump is engineered for heavy-duty performance in demanding environments, including irrigation, drainage, and general water transfer. Featuring a robust, corrosion-resistant construction, the pump ensures longevity and reliable fluid movement. Its efficient belt-driven design, powered by an external source via an integrated pulley system, provides consistent operation for agricultural and industrial applications.

Technical Specifications

Pump Type	Self-priming centrifugal
Drive System	Belt-driven
Body Material	Aluminum, Cast Iron

Performance Features

Ideal Applications

- Irrigation
- Water Drainage
- General Water Transfer

Design Details

Base Design	Yes
-------------	-----
