

# Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for efficient water transfer in various applications. It features a robust engine for reliable performance and durable construction for an extended lifespan, making it suitable for irrigation, drainage, and general water pumping tasks.

## Overview

### Professional Water Transfer Solution

This self-priming centrifugal water pump is designed for high-efficiency water transfer across demanding environments. Engineered for durability and consistent operation, it is an ideal choice for agricultural irrigation, site drainage, and general-purpose water management. Its robust construction ensures long-term reliability even under intensive usage conditions.

## Technical Specifications

Model Identifier	BR-WP-15(3)
Pump Type	Self-priming centrifugal
Typical Applications	Irrigation, Drainage, Water Transfer

## Operation and Maintenance

### Safety Instructions

- Do not operate in closed spaces
- Ensure lube-oil is added before operation

### Maintenance Level

Easy Maintenance • Heavy Duty
