Product Overview

Professional Water Pumping Solution

The JET-100L is a high-performance self-priming centrifugal water pump engineered for reliable clean water transfer and pressure boosting. Built with a robust cast iron housing, it offers excellent durability for both domestic and light commercial applications. Equipped with thermal overload protection and automatic operation capabilities, this pump ensures consistent flow and long-lasting performance in diverse irrigation and supply environments.

Key Performance Metrics

Operational Capacity

100 L/min
Max Flow Rate

Technical Specifications

Safety Features

Thermal Overload Protection • Automatic Pressure Switch

Applications

- Domestic Water Supply
- Irrigation
- Pressure Boosting

Construction Material

Cast Iron

Environment

Indoor, Sheltered Outdoor
