

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for efficient water transfer. It features a durable construction suitable for demanding applications such as irrigation, dewatering, and general water pumping.

Product Overview

High-Efficiency Water Transfer

This self-priming centrifugal water pump is engineered for demanding fluid transfer applications, offering reliable performance in challenging environments. Designed with durability in mind, it excels in tasks ranging from agricultural irrigation to industrial dewatering. Its robust construction ensures high flow rates and consistent operation, making it an essential tool for professional water management needs.

Technical Specifications

Model Identifier	NS-80
Pump Type	Self-priming Centrifugal

Applications

Suitable Applications	Irrigation, Dewatering, General Water Pumping
-----------------------	---

Performance Features

Key Performance Metrics

80 mm

Model Series
