

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for various applications including irrigation, water transfer, and pressure boosting. It features a durable construction with a cast iron pump body and a corrosion-resistant impeller.

Product Overview

High-Efficiency Centrifugal Pump

This self-priming centrifugal water pump is engineered for demanding fluid management tasks across domestic and industrial environments. It features a robust cast iron body coupled with a corrosion-resistant impeller to ensure long-term durability and consistent performance. Designed for versatility, this unit provides reliable flow rates and steady pressure for irrigation, water transfer, and pressure boosting applications.

Technical Specifications

Pump Type	Self-priming Centrifugal
Housing Material	Cast Iron
Impeller Material	Corrosion-resistant

Applications

Primary Applications	Irrigation, Water Transfer, Pressure Boosting, Industrial, Domestic
