

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for efficient water transfer and boosting pressure in various applications. It features a robust cast iron pump body and motor housing for durability.

Product Overview

High-Efficiency Self-Priming Solution

This self-priming centrifugal water pump is expertly engineered for reliable water transfer and pressure boosting across diverse environments. Constructed with a heavy-duty cast iron body and motor housing, it ensures long-term durability even in demanding conditions. Its high-performance motor makes it a versatile choice for irrigation, residential supply, and various industrial applications.

Technical Specifications

Pump Type	Self-Priming Centrifugal
Materials	Cast Iron Body, Cast Iron Motor Housing

Applications

Suitable Applications

- Agricultural Irrigation
- Domestic Water Supply
- Industrial Water Transfer
- Pressure Boosting Systems

Performance Features

Operational Highlights

High-Performance Motor • Self-Priming Capability • Durable Build
