Product Overview

Professional Self-Priming Solution

This self-priming jet pump is engineered for reliable water transfer and pressure boosting across domestic and light commercial applications. Featuring a durable stainless steel pump body, it offers excellent corrosion resistance and long-term durability. Its self-priming capability ensures efficient operation even when air is present in the suction line, making it an ideal choice for drawing water from wells or tanks.

Technical Specifications

Insulation Class

Class B

Protection Rating

IPX4

Motor Type

Two-Pole induction motor

Rated Speed

2900 r/min

Applications & Features

Typical Applications

- Domestic water supply
- Agricultural irrigation
- Pressure boosting systems

Key Features

Self-Priming, Stainless Steel Body, Corrosion Resistant, High Efficiency, Quiet Operation
