

Self-Priming Fluid Transfer Pump

This self-priming pump is designed for efficient fluid transfer. The pump features a durable metallic construction and is mounted on a sturdy metal frame with an adjustable mechanism.

Product Overview

Industrial Self-Priming Fluid Transfer Pump

This robust self-priming pump is engineered for efficient fluid transfer in demanding industrial environments. It features a durable metallic construction designed to withstand rigorous operation. The assembly includes a balanced wheel mechanism and a sturdy, adjustable mounting frame to ensure reliable performance and ease of installation.

Technical Specifications

Design Type	Self-priming
Construction Material	Metallic
Key Features	Self-priming, Adjustable mount, Balanced wheel assembly
