

# Self-Priming Jet Water Pump

This self-priming jet water pump is designed for efficient water transfer and boosting. It features a robust construction for durability and long-lasting performance.

## Overview

### High-Efficiency Water Transfer

This self-priming jet water pump is engineered for reliable water transfer and pressure boosting applications. Its robust construction ensures long-lasting performance and durability in demanding environments. It serves as an ideal solution for irrigation systems, domestic water supply, and various commercial pumping needs.

## Key Features

### Design Highlights

Self-Priming • Robust Construction • High Durability

### Suitable Applications

Irrigation, Domestic Water Supply, Water Boosting, General Pumping
