Product Overview

Self-Priming Water Jet Pump

This self-priming jet pump is engineered for reliable water supply and pressure boosting in domestic environments. It features a durable construction and an efficient hydraulic design, making it suitable for pumping clean water from wells, tanks, or streams. It provides consistent, dependable water pressure ideal for irrigation, washing, and various household applications.

Technical Specifications

Pump Type

Self-Priming • Jet Pump

Compatible Water Sources

- Wells
- Tanks
- Streams

Model Number

JSW10M

Applications

Water Supply, Pressure Boosting, Irrigation, Domestic Washing
