

Self-Priming Water Pump

This self-priming water pump is designed for various applications. It features a durable motor and pump housing for long-lasting performance.

Product Overview

High-Performance Self-Priming Solution

This robust self-priming water pump is engineered for reliability and consistent performance across diverse environments. Designed with a durable motor and high-quality pump housing, it ensures long-lasting operation even under demanding conditions. Its self-priming capability provides seamless water transfer, making it an ideal choice for domestic water supply, irrigation systems, and pressure boosting applications.

Technical Specifications

Key Features

- Self-priming capability
- Durable motor construction
- Robust pump housing
- Consistent water transfer

Performance Status

Self-Priming • High Durability

Primary Applications

Domestic Water Supply, Irrigation, Pressure Boosting
