

Self-Priming Water Pump

This self-priming pump is designed for efficient water transfer. Its durable construction ensures reliable performance in demanding environments.

Product Overview

Industrial Self-Priming Water Pump

This robust self-priming water pump is engineered for high-performance fluid transfer in demanding industrial environments. Featuring durable construction with a blue-painted body and premium brass components, it ensures long-term reliability and efficient operation. Its design allows for automatic priming and consistent flow rates, making it an ideal choice for diverse industrial water management applications.

Technical Specifications

Build Materials

- Durable blue-painted metal casing
- Brass internal components

Applications

Industrial Water Transfer • Automatic Priming Systems

Key Features

Self-Priming, Industrial Grade, Corrosion Resistant, Efficient Flow
