

Self-Priming Water Pump

This self-priming pump is designed for efficient water transfer and pressure boosting. Capable of self-priming from depths up to 8 meters, its compact design and reliable performance ensure long-lasting operation.

Overview

Professional Water Transfer Solution

This self-priming water pump is engineered for high-efficiency fluid transfer and reliable pressure boosting. Designed with a robust cast iron body and a powerful electric motor, it provides consistent performance across irrigation, domestic, and industrial applications. The unit offers excellent versatility, capable of self-priming from depths reaching 8 meters.

Performance

Max Suction Depth

8 m

Max Suction Depth

Construction

Material

Cast Iron

Applications

Suitable Applications

Irrigation, Domestic Water Supply, Industrial Use

Key Features

Design Highlights

- Self-priming capability
- Robust cast iron construction
- Compact design for space-saving
- High-performance electric motor
