

# Self-Priming Water Transfer Pump

This self-priming pump is designed for efficient water transfer and boosting applications. It features a robust construction for durability and long-lasting performance.

## ADDITIONAL IMAGES

## Product Overview

### DP Series Self-Priming Pump

The DP series self-priming pump is designed for efficient water transfer and boosting applications. It features a robust construction for durability and long-lasting performance. The pump is self-priming, allowing it to draw water from a source even when the pump is not initially filled with water. It is suitable for various applications including irrigation, domestic water supply, and industrial use.

## Operating Conditions

Max Fluid Temperature	60 °C
Max Ambient Temperature	40 °C
Rated Speed	2850 RPM

## Performance Specifications

### Model Comparison Table

Model	Max Capacity (L/min)	Max Lift (M)	Max Suction (M)	Power (W)	Voltage/Frequency
DP-256	30	40	15	550	220/50 Hz
DP-370	60	48	20	750	220/50 Hz

## System Components

### System Components

- Centrifugal pump
- Pressure tank
- Pressure switch
- Nozzle
- Sluice-gate
