

Self-Priming Water Transfer Pump

This self-priming pump is designed for efficient water transfer and pressure boosting. It features a robust motor and durable construction for reliable performance in various applications.

Overview

Efficient Water Transfer Solution

The 32ZB-45-0.55 is a high-performance self-priming water transfer pump engineered for reliability and durability. It is specifically designed to facilitate efficient water movement and pressure boosting across various settings. With its robust motor and easy-to-install architecture, this pump is an ideal solution for domestic water supply and irrigation requirements.

Technical Specifications

Model Number	32ZB-45-0.55
Power Output	0.55 kW

Applications

Suitable Applications	Domestic Water Supply, Irrigation, Pressure Boosting, General Purpose Pumping
-----------------------	-------------------------------------------------------------------------------

Features

Primary Benefits

- Self-priming capability for reliable operation
- Robust motor construction for long service life
- Easy installation and maintenance design
