

Self-Propelled Vertical Mast Lift

This is a self-propelled vertical mast lift designed for reaching elevated work areas. It features a compact chassis for maneuverability in tight spaces and a platform with safety railings for secure operation.

Overview

Professional Vertical Access Solution

This self-propelled vertical mast lift is engineered for efficient access to elevated work areas in confined spaces. Its compact chassis design ensures superior maneuverability, while the battery-powered electric drive provides quiet, emission-free operation ideal for indoor environments. Equipped with robust safety features like emergency stops and overload protection, this unit is a reliable choice for maintenance, installation, and inventory management tasks.

Performance

Power Source	Battery-powered electric drive
Operational Environment	Indoor, Confined Spaces

Safety & Compliance

Safety Features

- Emergency stop buttons
- Overload protection
- Safety railings
