

Self-Service Bean-to-Cup Espresso Maker

This self-service espresso machine uses a bean-to-cup system. It grinds fresh coffee beans immediately before brewing for optimal flavor.

Overview

Premium Self-Service Coffee Experience

This bean-to-cup espresso maker is designed to deliver fresh, professional-quality coffee in a convenient self-service format. By grinding fresh beans immediately before brewing, it ensures maximum flavor and aroma for every cup. The intuitive control interface and integrated steam wand make it an ideal choice for high-end household use or small office environments.
