

Semi-Automatic 3-Ply Nonwoven Face Mask Machine

This semi-automatic machine produces 3-ply nonwoven face masks. It has a processing speed of 80 pieces per minute.

Overview

Semi-Automatic 3-Ply Nonwoven Face Mask Production System

This semi-automatic solution is specifically engineered for the high-efficiency manufacturing of 3-ply nonwoven disposable face masks. The system integrates a main mask body formation process with specialized ear band spot welding stations. With a robust design, it is an ideal choice for businesses looking to scale production capabilities with reliable and tested automation equipment.

Performance

Production Capacity

80 pcs/min

Mask Body Output

20 pcs/min

Ear Band Welding

System Configuration

Optimized performance is achieved by pairing one mask body machine with two or three ear band welding machines.

Technical Specifications

Operational Efficiency

Process Unit	Speed
Mask Body Production	80 pcs/min
Ear Band Welding	20 pcs/min

Key Features

3-Ply Nonwoven, Semi-Automatic, Earloop Spot Welding, Disposable Mask Ready
