

Semi-Electric Pallet Stacker

This semi-electric stacker is designed to lift and move heavy loads in warehouse and industrial environments. It features a robust mast and forks for secure pallet handling.

Overview

Semi-Electric Pallet Stacker

This semi-electric pallet stacker is a versatile material handling solution designed for efficient lifting and moving of heavy loads in warehouse and industrial environments. It combines manual propulsion with electric lifting capabilities, offering a balance of control and ease of use. Featuring a robust mast and adjustable forks, this stacker is built for secure pallet handling and maneuverability in confined spaces.

Key Features

Main Characteristics

- Easy and convenient operation
- High-quality imported hydraulic station
- Lightweight structure
- Graceful and stylish design

Identification

Model	CDSD10H
Drive Unit	Semi-electric
Operation Type	Pedestrian

Performance

Load Capacity	1000 kg
Load Center	600 mm
Overall Length	1667 mm
Overall Width	0 mm
