Product Overview

Heavy-duty design suitable for industrial and warehouse environments.

Semi-Electric Pallet Truck

This semi-electric pallet truck is engineered for efficient and ergonomic material handling in demanding warehouse and industrial environments. It features a robust steel construction that balances heavy-duty performance with a compact design for easy maneuverability in tight aisles. By integrating an electric system for reliable lifting, it significantly reduces manual labor and operator strain, making it a highly productive and cost-effective solution for daily logistics operations.

Technical Specifications

Fork Width Options

- 550
- 685

Model	GL-0157
Load Capacity	1000 kg, 1500 kg

Power and Performance

Battery System

48 V

Voltage

20 A

Capacity

Compliance

Certifications

CE
