

# Semiautomatic PET Bottle Blowing Machine

The semiautomatic bottle blowing machine is designed for the efficient and reliable production of plastic bottles. Offering a balance of automation and manual control, it is suitable for various production scales.

## Overview

### Semiautomatic PET Bottle Blowing Machine

This 880A semiautomatic bottle blowing machine is engineered for the efficient and reliable production of high-quality PET bottles. Designed to balance automation with manual control, it offers a user-friendly interface and adjustable settings to accommodate various bottle sizes and shapes. The machine features a robust construction and an advanced preform heating system, ensuring consistent material preparation and precise blowing control for optimal output in water and beverage industries.

## Technical Specifications

### Typical Applications

- Water bottles
- Beverage containers
- Liquid product packaging

Machine Type	Semiautomatic
Material Compatibility	PET

## Performance

### Key Performance Metrics

**0 L**

Max Bottle Volume

**0 bph**

Production Capacity

## Utilities

### Utility Requirements

Requirement	Value
Power Consumption	Z kW
Compressed Air Pressure	P bar
