

Serial DB9 Mouse Cable

This is a red serial mouse cable with DB9 connectors. The transparent red cable allows the internal wires to be seen and connects older serial mice to computers.

Product Overview

Serial DB9 Mouse Cable

This specialized serial mouse cable is designed for legacy hardware connectivity, featuring a standard DB9 connector on both ends. The cable is constructed with a transparent red jacket, allowing for visual inspection of the internal wiring. It is an essential component for integrating older serial mouse peripherals with compatible legacy computer systems.

Technical Specifications

Connector Type	DB9
Cable Color	Transparent Red
Connector Style	Molded
Primary Application	Legacy Hardware, Serial Mouse, Data Connectivity
