

Sewing Machine Bobbin Case

This bobbin case is designed for sewing machines. It ensures smooth and consistent thread delivery during sewing operations.

Product Overview

High-Performance Bobbin Case

This BC-LK(J2) bobbin case is engineered for professional sewing operations, ensuring smooth and consistent thread delivery. Constructed from durable metal, it is built to withstand rigorous daily use while maintaining precise alignment. Its user-friendly design allows for efficient bobbin replacement and straightforward tension adjustments, making it an essential component for high-quality sewing projects.

Technical Details

Model Number	BC-LK(J2)
Material	Durable Metal

Features

Key Features

- Consistent thread delivery
- Durable metal construction
- Easy bobbin replacement
- Adjustable tension control

Compatibility

Multi-model compatible
