

SH1004 Wheeled Tractor for Agriculture

The SH1004 wheeled tractor is a versatile agricultural machine designed for various farming tasks. Its powerful engine delivers reliable performance for plowing, tilling, planting, and harvesting.

Product Overview

Robust Agricultural Performance

The SH1004 wheeled tractor is a versatile agricultural machine engineered for demanding field operations including plowing, tilling, planting, and harvesting. It features a high-horsepower engine and heavy-duty construction to ensure long-term durability in various farm environments. Equipped with hydraulic power steering and an ergonomic cabin, it balances mechanical power with operator comfort for enhanced productivity.

Key Performance Metrics

Performance Highlights

100 HP

Engine Power Rating

Technical Features

Mechanical Capabilities

- Hydraulic power steering system
- Three-point hitch system for implement compatibility
- Multiple gear transmission options
- Enhanced cabin visibility

Operational Suitability

Usage Context

Small-scale farming, Large-scale farming, Plowing, Tilling, Planting, Harvesting
