

# Shaded Pole Motor for Oven

Compact shaded pole motor designed for electric ovens. It features robust construction for reliable performance.

## Product Overview

### High-Performance Oven Motor

This compact shaded pole motor is specifically engineered for electric ovens and high-demand kitchen ventilation applications. Its robust construction ensures long-term reliability and consistent performance in elevated temperature environments. Designed for quiet operation and minimal vibration, this motor provides an efficient solution for cooling and airflow requirements.

## Technical Specifications

### Performance Features

- Robust construction for longevity
- Optimized for thermal efficiency
- Low-noise operation
- Reduced mechanical vibration

<b>Motor Type</b>	Shaded Pole Motor
<b>Primary Applications</b>	Electric Ovens, Kitchen Appliances, Cooling Systems, Ventilation
