

Shallow Well Water Pump

This shallow well water pump is designed for efficient water extraction from shallow sources. It features a durable cast iron casing for longevity and corrosion resistance.

Product Overview

Professional Shallow Well Solution

This robust shallow well jet pump is engineered for efficient water extraction from sources up to 25 feet deep. It features a durable cast iron volute for long-term corrosion resistance and includes a built-in thermal overload protector to ensure operational safety. With automatic start/stop functionality via a pre-set pressure switch, it provides reliable performance for residential and light commercial water systems.

Technical Specifications

Pressure Switch Range

30 PSI

Cut-in

50 PSI

Cut-out

Max Suction Lift	25 ft
Motor Voltage	115V, 230V

Hydraulic Connections

Connection Diameters

Port Type	Size
Suction Port	1-1/4" NPT
Discharge Port	1" NPT

Construction & Safety

Key Material & Safety Features

- Cast iron volute for longevity
- Built-in thermal overload protection
- Self-priming capability
- Integrated check valve to prevent backflow
