

# Sheet Metal Cutting Drill Attachment

This compact attachment converts power drills into sheet metal cutting tools. Its robust metal housing and adjustable cutting blades ensure precise and efficient cuts.

## Product Overview

### Professional Sheet Metal Cutting Solution

The Sheet Metal Cutting Drill Attachment is a versatile power tool accessory engineered for precision metal fabrication. By mounting onto standard power drills, it efficiently transforms them into specialized cutting tools capable of handling various metal sheets. This compact unit features a robust housing and adjustable blades, making it an essential asset for professionals in HVAC, automotive, and construction industries.

## Technical Details

Model Identifier	STB-1
Tool Compatibility	Standard Power Drills

## Performance

### Core Features

- Robust metal housing construction
- Adjustable cutting blade mechanism
- High-precision metal cutting capability
- Compact and portable design

## Applications

### Industry Use Cases

HVAC Installation • Automotive Repair • Construction Projects
