

Sheet Metal Shearing Machine, 3mm x 1250mm

This sheet metal shearing machine is designed for cutting metal sheets up to 3mm thick and 1250mm wide. It features a robust steel frame, precision blades, and an adjustable back gauge for accurate cuts.

Product Overview

Industrial Sheet Metal Shearing Machine

This robust sheet metal shearing machine is engineered for high-precision cutting of metal sheets up to 3mm in thickness and 1250mm in width. Built with a durable steel frame, it ensures stability and longevity in demanding workshop environments. The machine features an adjustable back gauge for consistent accuracy and a foot pedal control system to provide efficient, hands-free operation for metal fabricators.

Technical Capabilities

Max Cutting Thickness	3 mm
Max Cutting Width	1250 mm

Key Features

Operational Features

- Foot pedal for hands-free operation
- Adjustable back gauge for accuracy
- Precision-engineered cutting blades
- Heavy-duty steel frame construction

Application Details

Suitable Applications	Metal Fabrication, Workshop Use, Industrial Production
