Overview

Professional Grade Sheet Metal Snips

These professional-grade sheet metal snips are drop-forged from high-quality S55C or 60CR-V steel for superior durability. Featuring an induction-hardened cutting edge for precision and longevity, these tools are built to withstand rigorous use in HVAC, roofing, and metalworking applications. The heat-treated body and corrosion-resistant finishes ensure reliable performance and extended tool life.

Technical Specifications

Hardness Metrics

48 HRC

Body Hardness

61 HRC

Cutting Edge Hardness

Material Composition

S55C Steel, 60CR-V Steel

Available Finishes

Power Coating, Black Oxide, Natural Finish
