

Shiatsu and Rolling Massage Cushion with Heat

This massage cushion combines shiatsu and rolling massage techniques to relieve muscle tension and promote relaxation. It features rotating nodes that mimic the kneading action of a massage therapist and a rolling massage function that gently glides along the spine for soothing relief.

Overview

Professional Shiatsu and Rolling Massage Experience

This advanced massage cushion offers a professional-grade relaxation experience with a combination of deep-kneading shiatsu and gentle rolling techniques. Designed for versatility, it features an adjustable neck position and comprehensive back coverage with integrated infrared heating. Ideal for home, office, or vehicle use, the system provides customizable intensity and targeted spot massage to help alleviate muscle tension effectively.
