

Shielded Communication Cable

This communication cable is designed for reliable signal transmission in various applications. It features excellent shielding properties and low signal loss, ensuring optimal performance.

Product Overview

High-Performance Communication Cable

This shielded communication cable is engineered for reliable signal transmission across a variety of demanding applications. Featuring a robust construction with a solid copper conductor and foam polyethylene dielectric insulation, it minimizes signal loss effectively. Protected by a braided copper shield and a durable black PVC jacket, this cable is built for longevity and consistent performance in both indoor and outdoor environments.

Construction Details

Conductor Material	Solid Copper
Dielectric Insulation	Foam Polyethylene (PE)
Shielding	Braided Copper
Jacket Material	PVC
Jacket Color	Black

Performance & Application

Key Features

- Low signal loss
- Excellent shielding properties
- Reliable signal transmission

Installation Environment	Indoor, Outdoor
